Our goal is to help empower patients, through information, to help them navigate a cancer diagnosis. From initial diagnosis, throughout treatment, and in to all phases of survivorship, Bag It guides patients on how to talk to their healthcare providers, ask questions, and serve as the most important advocate on their care team.
Professional support services for anyone affected by cancer with an emphasis on quality-of-life survivorship issues.

**Cancer Support Community**

Professional support services for anyone affected by cancer with an emphasis on quality-of-life survivorship issues.

**Cancer Warrior Alliance**

The Cancer Warrior Alliance delivers cancer support resource information to the cancer community by building relationships with and providing resource information to clinics, hospitals and those affected by cancer, and informing and empowering everyone in the cancer community to obtain resources and attend support and information events.

**CancerCare [for Young Adults]**

Professional counseling, facilitated peer support groups, creative workshops and financial assistance for young adults with cancer.

**CancerFightClub**

Canada's largest bilingual online resource for young adults, caregivers, family and friends. It provides instant access to the resources and support services that help guide you through your cancer experience. The online community puts you in touch with other members, their stories and knowledge, and the support you need in your fight.
CureSearch for Children’s Cancer accelerates the search for cures for children’s cancer by driving innovation, overcoming research barriers, and solving the field’s most challenging problems by catapulting strong medical research and providing resources and education.

**MediFind**

MediFind uses the power of big data to connect patients with the right doctors and treatments faster. We are constantly analyzing every new piece of medical information for nearly every health condition from around the globe to identify what you need to make the most informed treatment decisions possible. Then we simplify that information so you can actually use it.

**National Cancer Institute's Cancer Information Service**

The NCI, a component of the National Institutes of Health, is the Nation's principal agency for cancer research. Information specialists are available to help answer your cancer-related questions whether you are a patient, family member or friend, health care provider, or researcher. Our service is available in English and Spanish over the phone, by email, or through LiveHelp online chat.

**National Coalition for Cancer Survivorship**

Survivor-led advocacy organization working to increase access to improved quality care through legislative and public policy change, patient empowerment and educational outreach initiatives.

**National Comprehensive Cancer Network**

NCCN is a not-for-profit alliance of 28 leading cancer centers devoted to patient care, research, and education. NCCN is dedicated to improving and facilitating quality, effective, efficient, and accessible cancer care so patients can live better lives.

**The Half Fund**

The Half Fund is a mission dedicated to lifting the veil on cancer. It is a first-of-its-kind 501(c)(3) not-for-profit entity dedicated to spreading cancer education and awareness through the financing of commercially viable, mass media appeal projects. These may include films, books, television shows, or music, and will all help to educate people about the realities of a cancer diagnosis and the treatments that follow.
The Prevent Cancer Foundation

The mission of the Prevent Cancer Foundation is to save lives across all populations through cancer prevention and early detection. The organization aims to reduce the cancer mortality rate by focusing individual behaviors, public policy, and research on prevention and early detection, address all preventable cancers across all populations, make prevention knowledge and early detection services more accessible for people in medically underserved communities, collaborate with partners to maximize the effectiveness and reach of the prevention and early detection programs and message, and create an energizing and productive workplace that people want to join.

The Taylor Matthews Foundation

The Taylor Matthews Foundation is dedicated to raising awareness and funding pediatric cancer research. We fund cutting-edge, innovative research that reaches sick children now. It is our mission that children with cancer will live long, healthy, and productive lives.

Triage Cancer

Triage Cancer is a national, nonprofit organization that provides education on the practical and legal issues that may impact individuals diagnosed with cancer and their caregivers, through events, materials, and resources.

TrialJectory

A free, patient-friendly platform that helps you find and apply for clinical trials that match your disease profile.

Vital Options

Vital Options International is a global health foundation focused on supporting the financial needs of patients and giving patients a voice. Vital Options is also committed to giving a voice to patients, caregivers, families and healthcare professionals through our award-winning Vital Conversations and Advocacy In Action programs. This blend of patient stories and insights from healthcare professionals provides patients and their families valuable guidance to the treatment and support they need.
